1 | Preparamos los soportes

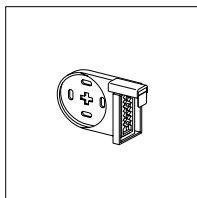

Primer soporte

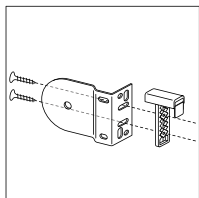

Atornillar

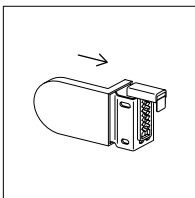

Encajar

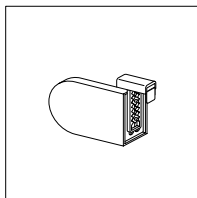

Segundo soporte

Atornillar

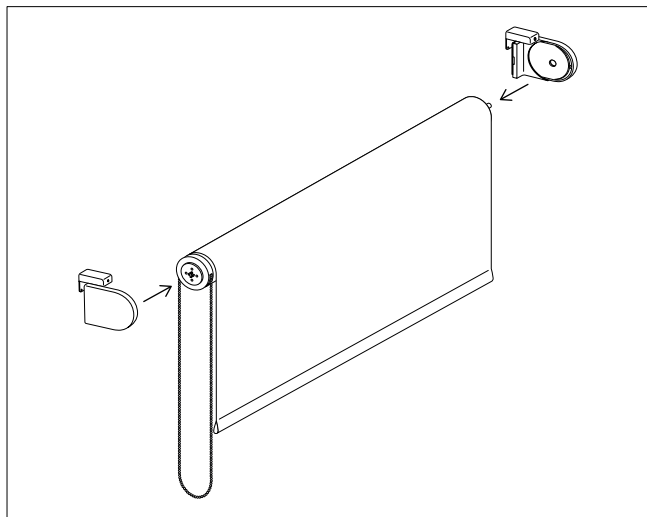

Encajar

Si tus soportes y ganchos no van unidos de fábrica sigue estos pasos: **Posicionamos** y **atornillamos** con los tornillos el gancho al soporte. **Encajamos** el embellecedor al soporte. **Repetimos** la etapa para el segundo soporte.

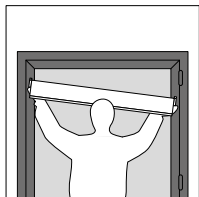

2 | Colocamos los soportes

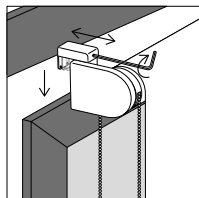

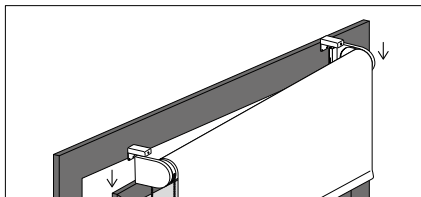

Colocar

Colocamos los dos soportes de cada lado del estor.

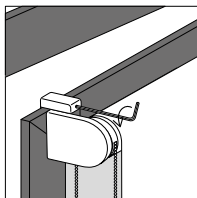

3 | Fijamos el estor

Posicionar

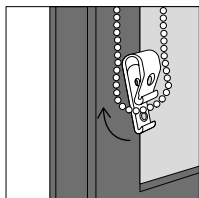

Posicionar

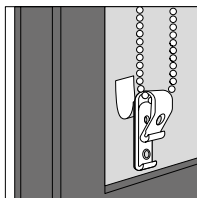

Apretar

Abrimos la ventana. **Sujetamos** los soportes de cada lado y **colocamos** el estor centrada a la ventana. A continuación, los soportes **se aprieta** con la ayuda de la **llave allen** a la hoja de la ventana.

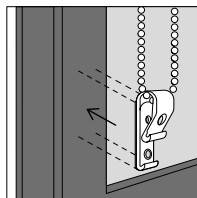

4 | Seguridad infantil

Introducir

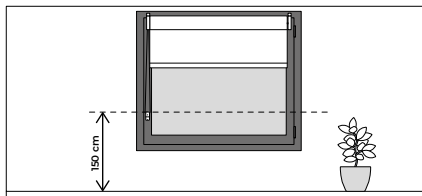

Despegar

Pegar

ADVERTENCIA

Medir

Introducimos la cadena en la seguridad infantil, **despegamos** el papel de protección de la pegatina y **pegamos** la seguridad infantil en el marco de la ventana. **La altura de la cadena debe quedar instalada como mínimo a 150 cm del suelo.**
